24/01/2026	This is a fun day-long taster course in oil painting for those who may be considering a longer evening or daytime course and are wondering how much they will enjoy it. Throughout the day the tutor will lead the class in hands-on, practical demonstrations to show you how to mix colour and see shape and tone, and how these elements relate to form a composition. We aim to foster self-certainty and an enjoyment of painting in a relaxed yet stimulating environment. You will make at least two paintings in the day, the morning will be spent focusing on how to handle oil paint whilst working from a still-life set up using natural and organic forms. During the afternoon students will be taken through detailed colour theory whilst painting a bright colourful still life, they will learn how colour and pigment strengths affect oil paint and how to use it to create a vibrant expressive painting. Throughout the day you will be encouraged to play and enjoy the application of paint whilst also understanding techniques of working from observation.	No
