

ART ACADEMY LONDON

DRAWING from £950

Available as a 2 hour or Half-Day session. Drink & Draw optional!

Our Team Building Drawing sessions are designed to be fun, informative, social and engaging in a relaxed and inspiring environment! At Art Academy London we give you the opportunity to explore two different drawing practices:

- **Still Life Drawing**

You will be introduced to the techniques of line, tone and measurement using pencil and charcoal. Using still life objects, you will practise what you have learned through a series of drawing exercises. You will then draw a portrait blindfolded, relying on a partner to instruct you! You can choose to extend this session to follow on with a self-portrait drawing.

- **Life Drawing**

You will be introduced to the techniques of line, tone and measurement using pencil and charcoal. You will then complete a series of life drawings from a model in shorter and longer poses.

Each Drawing session begins with warm-up exercises that serve as icebreakers, bringing the team together by encouraging them to be creative in pairs and groups without worrying about achieving 'perfect' results. This is a great way to help individuals get to know each other better for improved team bonding.

Our staff members are more than happy to help you create a unique or bespoke Team Building session based on a specific theme you would like to explore, ensuring that you and your team get the most out of your Team Building Day.

This exercise is perfect for team bonding and for developing a growing understanding and appreciation of each other. The exercise also works very well in exploring the underlying qualities of the team, core values, a strategy or whichever subject is chosen as the general theme.
